

**Articles**

- 218 **Vrica-Crotone and Montalbano Jonico sections: A potential unit-stratotype of the Calabrian Stage**  
by P. Maiorano, L. Capotondi, N. Ciaranfi, A. Girone, F. Lirer, M. Marino, N. Pelosi, P. Petrosino, and A. Piscitelli
- 234 **Fossils, histology, and phylogeny: Why conodonts are not vertebrates**  
by Alain Blicq, Susan Turner, Carole J. Burrow, Hans-Peter Schultze, Carl B. Rexroad, Pierre Bultynck and Godfrey S. Nowlan

**Review Article**

- 242 **Understanding and study perspectives on tectonic evolution and crustal structure of the Paleozoic Chinese Tianshan**  
by Qingchen Wang, Liangshu Shu, Jacques Charvet, Michel Faure, Huadong Ma, Boris Natal'in, Jun Gao, Alfred Kroner, Wenjiao Xiao, Jinyi Li, Brian Windley, Yan Chen, Richard Glen, Ping Jian, W. Zhang, Reimar Seltmann, Simon Wilde, Flavien Choulet, Bo Wan, Cameron Quinn, Yamirka Rojas-Agramonte, Qinghua Shang, Wei Zhang, Bo Wang, Wei Lin

**News Reports**

- 267 EarthCaching – An Earth science outreach success story
- 270 Ad hoc review of the IUGS Commission for the Management and Application of Geoscience Information (CGI)
- 271 Abrupt global events in the Earth's history: A physics perspective
- 272 Annual General Meeting of the Geological Society of India

**Conference Reports**

- 273 Third annual IGCP 565 workshop: Separating hydrological and tectonic signals in geodetic observations
- 278 Eurogranites Arctic 2009: An annual international workshop
- 280 Semantic geological standard development: An international GeoScience Language workshop
- 281 An integrated approach to address the effects of climate change on agriculture and environment
